(11) In addition to sanctions set forth in this act, a licensee, owner, administrator, or operator of a psychiatric facility or intermediate care facility for people with mental retardation who knowingly and willfully fails to conduct the criminal history checks as required under this section is guilty of a misdemeanor punishable by imprisonment for not more than 1 year or a fine of not more than \$5,000.00, or both.

(12) In collaboration with the department of state police, the department of information technology shall establish an automated fingerprint identification system database that would allow the department of state police to store and maintain all fingerprints submitted under this section and would provide for an automatic notification if and when a subsequent criminal arrest fingerprint card submitted into the system matches a set of fingerprints previously submitted in accordance with this section. Upon such notification, the department of state police shall immediately notify the department and the department shall immediately contact the respective psychiatric facility or intermediate care facility for people with mental retardation with which that individual is associated. Information in the database established under this subsection is confidential, is not subject to disclosure under the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246, and shall not be disclosed to any person except for purposes of this act or for law enforcement purposes.

(13) April 1, 2009, the department shall submit a written report to the legislature outlining a plan to cover the costs of the criminal history checks required under this section if federal funding is no longer available or is inadequate to cover those costs.

(14) The department and the department of state police shall maintain an electronic web-based system to assist those psychiatric facilities or intermediate care facilities for people with mental retardation required to check relevant registries and conduct criminal history checks of its employees and independent contractors and to provide for an automated notice to those psychiatric facilities or intermediate care facilities for people with mental retardation for those individuals inputted in the system who, since the initial check, have been convicted of a disqualifying offense or have been the subject of a substantiated finding of abuse, neglect, or misappropriation of property.

Sec. 135. (1) Subject to section 114a, the director, by rule, shall set standards that assure the provision of a quality improvement plan, utilization review, and the appropriate training and education of staff and that require documented policies and procedures for the administration of the services that are offered by a psychiatric partial hospitalization program.

(2) Subject to section 114a, the director shall promulgate rules to define all of the following:

(a) Psychiatric hospitals and psychiatric hospital services to clearly differentiate between the active intensive care expected in psychiatric hospitals or psychiatric units and that care which is characteristically expected in general hospitals, long-term care facilities, or residential facilities.

(c) The relationship between a partial hospitalization program and its affiliated inpatient hospital or unit.

(3) Sections 134 to 150 do not cover adult foster care facilities or child care organizations licensed under Act No. 116 of the Public Acts of 1973, being sections 722.111 to 722.128 of the Michigan Compiled Laws.

The rules shall be promulgated pursuant to the administrative procedures act of 1969, Act No. 306 of the Public Acts of 1969, as amended, being sections 24.201 to 24.328 of the Michigan Compiled Laws.

History: 1974, Act 258, Eff. Aug. 6, 1975;—Am. 1994, Act 137, Eff. June 1, 1994.

330.1137 Psychiatric hospital, psychiatric unit, or psychiatric partial hospitalization program; license required; disclosures; provisional license; violation; penalty; biennial licensure; fees; receipt of completed application; issuance of license within certain time period; report; "completed application" defined.

Sec. 137. (1) A person shall not construct, establish, or maintain a psychiatric hospital, psychiatric unit, or psychiatric partial hospitalization program or use the terms psychiatric hospital, psychiatric unit, or psychiatric partial hospitalization program, without first obtaining a license. The director shall require an applicant or a licensee to disclose the names, addresses, and official positions of all persons who have an ownership interest in a psychiatric hospital, psychiatric unit, or psychiatric partial hospitalization program. If the psychiatric hospital, psychiatric unit, or psychiatric partial hospitalization program is located on or in real estate that is leased, the applicant or licensee shall disclose the name of the lessor and any direct or indirect interest that the applicant or licensee has in the lease other than as lessee. A nontransferable license shall be granted for 2 years after the date of issuance, unless otherwise provided in sections 134 to 150. The director may issue a provisional license for 1 year to provide a licensee or applicant time to undertake remedial action to correct programmatic or physical plant deficiencies. A provisional license may be renewed for not longer

than 1 additional year. A violation of this section is a misdemeanor and is punishable by a fine of not more than \$1,000.00 for each violation.

(2) Biennial licensure of psychiatric hospitals, psychiatric units, and psychiatric partial hospitalization programs shall be implemented by March 28, 1997. License fees shall be prorated according to the period of time that the license will be in force.

(3) Beginning the effective date of the amendatory act that added this subsection, the department shall issue an initial license under this section not later than 6 months after the applicant files a completed application. Receipt of the application is considered the date the application is received by any agency or department of this state. If the application is considered incomplete by the department, the department shall notify the applicant in writing or make notice electronically available within 30 days after receipt of the incomplete application, describing the deficiency and requesting additional information. The 6-month period is tolled upon notification by the department of a deficiency until the date the requested information is received by the department. The determination of the completeness of an application is not an approval of the application for the license and does not confer eligibility on an applicant determined otherwise ineligible for issuance of a license.

(4) If the department fails to issue or deny a license or registration within the time required by this section, the department shall return the license fee and shall reduce the license fee for the applicant's next renewal application, if any, by 15%. Failure to issue or deny a license within the time period required under this section does not allow the department to otherwise delay the processing of the application. A completed application shall be placed in sequence with other completed applications received at that same time. The department shall not discriminate against an applicant in the processing of the application based on the fact that the application fee was refunded or discounted under this subsection.

(5) Beginning October 1, 2005, the director of the department shall submit a report by December 1 of each year to the standing committees and appropriations subcommittees of the senate and house of representatives concerned with issues relating to mental health. The director shall include all of the following information in the report concerning the preceding fiscal year:

(a) The number of initial applications the department received and completed within the 6-month time period described in subsection (3).

(b) The number of applications rejected.

(c) The number of applicants not issued a license within the 6-month time period and the amount of money returned to licensees under subsection (4).

(6) As used in this section, "completed application" means an application complete on its face and submitted with any applicable licensing fees as well as any other information, records, approval, security, or similar item required by law or rule from a local unit of government, a federal agency, or a private entity but not from another department or agency of this state.

(2) The license fee for a provisional license is the same as the fee for a license. When the requirements for licensure are met, the provisional license shall be replaced by a license without an additional fee for the

balance of the 2-year period.

certified by the department under section 232a may become a community mental health authority as provided in this section through an enabling resolution adopted by the board of commissioners of each creating county after at least 3 public hearings held in accordance with the open meetings act, 1976 PA 267, MCL 15.261 to 15.275. The resolution is considered adopted if it is approved by a majority of the commissioners elected and serving in each county creating the authority. The enabling resolution is not effective until it has been filed with the secretary of state and with the county clerk of each county creating the authority. If any provision of the enabling resolution conflicts with this act, this act supersedes the conflicting provision.

(2) All of the following shall be stated in the enabling resolution:

(a) The purpose and the power to be exercised by the community mental health authority shall be to comply with and carry out the provisions of this act.

(b) The duration of the existence of the community mental health authority and the method by which the community mental health authority may be dissolved or terminated by itself or by the county board or boards of commissioners. These provisions shall comply with section 220.

(c) The manner in which any net financial assets originally made available to the authority by the participating county or counties will be returned or distributed if the authority is dissolved or terminated. All other remaining assets, net of liabilities, shall be transferred to the community mental health services program or programs that replace the authority.

(ii) Upon the creation of a community mental health authority, the employees of the former community mental health services program shall be transferred to the new authority and appointed as employees subject to all rights and benefits for 1 year. Such employees of the new community mental health authority shall not be placed in a worse position by reason of the transfer for a period of 1 year with respect to workers' compensation, pension, seniority, wages, sick leave, vacation, health and welfare insurance, or any other benefit that the employee enjoyed as an employee of the former community mental health services program. Employees who are transferred shall not by reason of the transfer have their accrued pension benefits or credits diminished.

(iii) If the former county community mental health agency or community mental health organization was the designated employer or participated in the development of a collective bargaining agreement, the newly established community mental health authority shall assume and be bound by the existing collective bargaining agreement. The formation of a community mental health authority shall not adversely affect any existing rights and obligations contained in the existing collective bargaining agreement. For purposes of this provision, participation in the development of a collective bargaining agreement means that a representative of the community mental health agency or organization actively participated in bargaining sessions with the employer representative and union or was consulted with during the bargaining process.

(b) To make purchases and contracts.

(c) To transfer, divide, or distribute assets, liabilities, or contingent liabilities, unless the community mental

health authority is a single-county community mental health services program and the county has notified the department of its intention to terminate participation in the community mental health services program. During the interim period between notification by a county under section 220 of its intent to terminate participation in a multi-county community mental health services program and the official termination of that participation, a community mental health authority's power under this subdivision is subject to any agreement between the community mental health authority and the county that is terminating participation, if that agreement is consistent with the enabling resolution that created the authority.

(d) To accept gifts, grants, or bequests and determine the manner in which those gifts, grants, or bequests may be used consistent with the donor's request.

During the interim period between notification by a county under section 220 of its intent to terminate participation in a multi-county community mental health services program and the official termination of that participation, a community mental health authority's power under this subdivision is subject to any agreement between the community mental health authority and the county that is terminating participation, if that agreement is consistent with the enabling resolution that created the authority.

(v) Incur debts, liabilities, or obligations that do not constitute the debts, liabilities, or obligations of the creating county or counties.

(vi) Commence litigation and defend itself in litigation.

(g) To invest funds in accordance with statutes regarding investments.

(h) To set up reserve accounts, utilizing state funds in the same proportion that state funds relate to all revenue sources, to cover vested employee benefits including, but not limited to, accrued vacation, health benefits, the employee payout portion of accrued sick leave, if any, and worker's compensation. In addition, an authority may set up reserve accounts for depreciation of capital assets and for expected future expenditures for an organizational retirement plan.

This subsection applies only to county government.

(7) A community mental health authority shall not levy any type of tax or, except as provided in subsection (13), issue any type of bond in its own name or financially obligate any unit of government other than itself.

As used in this subdivision, "operating margin" means the excess of state revenue over state expenditures for a single fiscal year exclusive of capitated payments under a managed care system. History: 1974, Act 258, Eff. Aug. 6, 1975;—Am. 1995, Act 290, Eff. Mar. 28, 1996.

330.1232a Rules; certification and review process standards; compliance.

Sec. 232a. (1) Subject to section 114a, the department shall promulgate rules to establish standards for certification and the certification review process for community mental health services programs. The standards shall include but not be limited to all of the following:

(a) Matters of governance, resource management, quality improvement, service delivery, and safety management.

(b) Promotion and protection of recipient rights.

(2) After reviewing a community mental health services program, the department shall notify a program that substantially complies with the standards established under this section that it is certified by the department.

(3) The department may waive the certification review process in whole or in part and consider the community mental health services program to be in substantial compliance with the standards established under this section if the program has received accreditation from a national accrediting organization recognized by the department that includes review of matters described in subsection (1)(a).

(4) If the department certifies a community mental health services program despite some items of noncompliance with the standards established under this section, the notice of certification shall identify the items of noncompliance and the program shall correct the items of noncompliance. The department shall require the community mental health board to submit a plan to correct items of noncompliance before recertification or sooner at the discretion of the department.

(5) Certification is effective for 3 years and is not transferable. Requests for recertification shall be submitted to the department at least 6 months before the expiration of certification. Certification remains in effect after the submission of a renewal request until the department conducts a review and makes a redetermination.

(6) The department shall conduct an annual review of each community mental health services program's recipient rights system to ensure compliance with standards established under subsection (1)(b). An on-site review shall be conducted once every 3 years.

(7) The community mental health services program shall promptly notify the department of any changes that may affect continued certification.

(8) The department may deny certification if the community mental health services program cannot demonstrate substantial compliance with the standards established under this section.

(9) In lieu of denying certification, the department may issue a provisional certification for a period of up to 6 months upon receiving a plan of correction submitted by the community mental health services board. The department shall provide a copy of the review and the approved plan of correction to the board of

commissioners of each county that established the county community mental health agency or created the community mental health organization or community mental health authority. A provisional certification may be extended, but the entire provisional period shall not exceed 1 year. The department shall conduct an on-site review to determine the community mental health services program's compliance with the plan of correction at least 30 days before the expiration of the provisional certification. A provisional certification automatically expires either on its original expiration date or the expiration date of the extension granted.

(10) If a community mental health services program is denied certification, fails to comply with an approved plan of correction before the expiration of a provisional certification, or fails to comply substantially with the standards established under this section, the department shall notify the community mental health services board and the board of commissioners of each county that established the agency or created the organization or authority of the department's intention to suspend, deny, or revoke certification. The notice shall be sent by certified mail and shall set forth the particular reasons for the proposed action and offer an opportunity for a hearing with the director of the department's division that manages contracts with community mental health services programs. If it desires a hearing, the community mental health services board shall request it in writing within 60 days after receipt of the notice. The department shall hold the hearing not less than 30 days or more than 60 days from the date it receives the request for a hearing.

(11) The director of the department's division that manages contracts with community mental health services programs shall make a decision regarding suspension, denial, or revocation of certification based on evidence presented at the hearing or on the default of the community mental health services board. A copy of the decision shall be sent by certified mail within 45 days after the close of the hearing to the community mental health services board and to the board of commissioners of each county that established the agency or created the organization or authority.

(12) A community mental health services board may appeal a decision made under subsection (11) as provided in chapter 4 of the administrative procedures act of 1969, Act No. 306 of the Public Acts of 1969, being sections 24.271 to 24.287 of the Michigan Compiled Laws.

(13) During the period of certification, the department may conduct an unannounced review of a certified community mental health services program. The department shall conduct an unannounced review of a certified community mental health services program in response to information that raises questions regarding recipient health or safety. If the department finds based on its review that the community mental health services program does not substantially comply with the standards established under this section, the department shall provide notice and a hearing under subsections (10) and (11).

(14) If a community mental health services program fails to obtain or retain certification as a result of the department's review, has exhausted the time period for provisional certification, is not engaged in the process of appeal or appeal has been unsuccessful, and if no agreement has been reached by the department with the community mental health services program to assure certification compliance within a specified time period, the department shall within 90 days do both of the following:

(a) Cancel the state funding commitment to the community mental health services board.

(b) Utilize the funds previously provided to the community mental health services board to do 1 or more of the following:

(i) Secure services from other providers of mental health services that the department has determined can operate in substantial compliance with the standards established under this section and continue the delivery of services within the county or counties.

(ii) Provide the service.

(15) If state funding is canceled under subsection (14) and the community mental health services program is an authority created under section 205, the county or counties that created the authority are financially liable only for the local match formula established for the authority under chapter 3. If state funding is canceled under subsection (14) and the community mental health services program is a county community mental health agency or a community mental health organization, the county or counties that established the agency are financially liable for local match for all services contractually or directly provided by the department to residents of the county or counties in accordance with chapter 3.

(16) The department shall not utilize the certification process under this section to require a community mental health services program to become a community mental health authority. Community mental health authority status is voluntary as provided in section 205.

(17) Subject to section 114a, the department shall submit proposed rules for certification to public hearing within 6 months after the effective date of the amendatory act that added this section.

The standards established under this section shall reference applicable federal regulations related to medicaid managed care programs and specify additional state requirements for specialty prepaid health plans. The standards established under this section shall be published in a departmental bulletin or by an updating insert to a departmental manual.

(2) As a condition for contracting and for receiving payment under the medicaid managed care program, a community mental health services program designated as a specialty prepaid health plan shall certify both of the following:

(a) That the program is in substantial compliance with the standards promulgated by the department and with applicable federal regulations.

(b) That the program has established policies and procedures to monitor compliance with the standards promulgated by the department and with applicable federal regulations and to ensure program integrity.

(3) The department shall conduct an annual review of all community mental health services programs designated as specialty prepaid health plans to verify the declarations made by the community mental health services program and to monitor compliance with the standards promulgated for specialty prepaid health plans and with applicable federal regulations. The annual review process established under this section shall be published in a departmental bulletin or by an updating insert to a departmental manual.

(4) The department may conduct separate reviews of a specialty prepaid health plan in response to beneficiary complaints, financial status considerations, or health and safety concerns.

(5) Contracts with specialty prepaid health plans shall indicate the sanctions that the department may invoke if it makes a determination that a specialty prepaid health plan is not in substantial compliance with promulgated standards and with established federal regulations, that the specialty prepaid health plan has misrepresented or falsified information reported to the state or to the federal government, or that the specialty prepaid health plan has failed substantially to provide necessary covered services to recipients under the terms of the contract. Sanctions may include intermediate actions including, but not limited to, a monetary penalty imposed on the administrative and management operation of the specialty prepaid health plan, imposition of temporary state management of a community mental health services program operating as a specialty prepaid health plan, or termination of the department's medicaid managed care contract with the community mental health services program.

(6) Before imposing a sanction on a community mental health services program that is operating as a specialty prepaid health plan, the department shall provide that specialty prepaid health plan with timely written notice that explains both of the following:

(a) The basis and nature of the sanction.

(b) The opportunity for a hearing to contest or dispute the department's findings and intended sanction, prior to the imposition of the sanction. A hearing under this section is subject to the provisions governing a contested case under the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, unless otherwise agreed to in the specialty prepaid health plan contract.

(f) The demonstrated relevancy, quality, effectiveness, and efficiency of the community mental health services program's services.

(g) The adequacy of the community mental health services program's accounting for the expenditure of

Funds so withdrawn may be reallocated by the department to other community mental health services programs. In taking the individual into custody, a peace officer may take reasonable steps for self-protection. The protective steps may include a pat down search of the individual in the individual's immediate surroundings, but only to the extent necessary to discover and seize a dangerous weapon that may be used against the officer or other persons present. These protective steps shall be taken by the peace officer before the individual is transported to a preadmission screening unit or a hospital designated by the community mental health services program.

The peace officer shall inform the individual that he or she is being held in protective custody and is not under arrest. An entry shall be made indicating the date, time, and place of the taking, but the entry shall not be treated for any purpose as an arrest or criminal record.

ADMISSION BY PETITION

330.1433 Assisted outpatient treatment; petition; filing; hearing; court order to receive treatment; appeal.

Sec. 433. (1) Any individual 18 years of age or over may file a petition with the court that asserts that an individual meets the criteria for assisted outpatient treatment specified in section 401(d). The petition shall contain the facts that are the basis for the assertion, the names and addresses, if known, of any witnesses to the facts, the name and address of the mental health professional currently providing care to the individual who is the subject of the petition, if known, and the name and address of the nearest relative or guardian, if known, or, if none, a friend, if known, of the individual who is the subject of the petition.

(2) Upon receipt of a petition, the court shall inform the subject of the petition and the community mental health services program serving the community in which the subject of the petition resides that the court shall hold a hearing to determine whether the subject of the petition meets the criteria for assisted outpatient treatment. Notice shall be provided as set forth in section 453. The hearing shall be governed by sections 454 and 458 to 465.

(3) If in the hearing, the court verifies that the subject of the petition meets the criteria for assisted

outpatient treatment and he or she is not scheduled to begin a course of outpatient mental health treatment that includes case management services or assertive community treatment team services, the court shall order the subject of the petition to receive assisted outpatient treatment through his or her local community mental health services program. The order shall include case management services. The order may include 1 or more of the following:

- (a) Medication.
 - (b) Blood or urinalysis tests to determine compliance with or effectiveness of prescribed medications.

 - (g) Assertive community treatment team services.
 - (h) Alcohol or substance abuse treatment, or both.
 - (i) Alcohol or substance abuse testing, or both, for individuals with a history of alcohol or substance abuse and for whom that testing is necessary to prevent a deterioration of their condition. A court order for alcohol or substance abuse testing shall be subject to review every 6 months.
 - (j) Any other services prescribed to treat the individual's mental illness and to either assist the individual in living and functioning in the community or to help prevent a relapse or deterioration that may reasonably be predicted to result in suicide or the need for hospitalization.
- (4) To fulfill the requirements of an assisted outpatient treatment plan, the court's order may specify the service role that a publicly-funded entity other than the community mental health services program shall take.
- (5) In developing an order under this section, the court shall consider any preferences and medication experiences reported by the subject of the petition or his or her designated representative, whether or not the subject of the petition has an existing individual plan of services under section 712, and any directions included in a durable power of attorney or advance directive that exists. If the subject of the petition has not previously designated a patient advocate or executed an advance directive, the responsible community mental health services program shall, before the expiration of the assisted outpatient treatment order, ascertain whether the subject of the petition desires to establish an advance directive. If so, the community mental health services program shall direct the subject of the petition to the appropriate community resources for assistance in developing an advance directive.
- (6) If an assisted outpatient treatment order conflicts with the provisions of an existing advance directive, durable power of attorney, or individual plan of services developed under section 712, the assisted outpatient treatment order shall be reviewed for possible adjustment by a psychiatrist not previously involved with developing the assisted outpatient treatment order. If an assisted outpatient treatment order conflicts with the provisions of an existing advance directive, durable power of attorney, or individual plan of services developed under section 712, the court shall state the court's findings on the record or in writing if the court takes the matter under advisement, including the reason for the conflict.
- (7) Nothing in this section negates or interferes with an individual's rights to appeal under any other state law or Michigan court rule.

If a clinical certificate does not accompany the petition, an affidavit setting forth the reasons an examination could not be secured shall also be filed. The petition may also be accompanied by a second clinical certificate. If 2 clinical certificates accompany the petition, at least 1 clinical certificate shall have been executed by a psychiatrist.

(4) After any examination ordered under this section, the examining physician or licensed psychologist shall either transmit a clinical certificate to the court or report to the court that execution of a clinical certificate is not warranted.

(5) If 1 examination was ordered and the examining physician or licensed psychologist reports that execution of a clinical certificate is not warranted, or if 2 examinations were ordered and 1 of the examining physicians or the licensed psychologist reports that execution of a clinical certificate is not warranted, the court shall dismiss the petition or order the individual to be examined by a psychiatrist, or if a psychiatrist is not available, by a physician or licensed psychologist. If a third examination report states that execution of a clinical certificate is not warranted, the court shall dismiss the petition.

If the preadmission screening unit authorizes hospitalization, the peace officer shall transport the individual to a hospital designated by the community mental health services program, unless other arrangements are provided by the preadmission screening unit. Sec. 455. (1) The subject of a petition has the right to be present at all hearings. This right may be waived by a waiver of attendance signed by the subject of a petition, witnessed by his or her legal counsel, and filed with the court or it may be waived in open court at a scheduled hearing. The subject's right to be present at a hearing is considered waived by the subject's failure to attend the hearing after receiving notice required by section 453 and any applicable court rule, providing the subject has had an opportunity to consult with counsel as required under section 454. The court may exclude the subject from a hearing if the subject's behavior at the hearing makes it impossible to conduct the hearing. The court shall enter on the record its reasons for excluding the subject of a petition from the hearing. The subject's presence may be waived by the court if there is testimony by a physician or licensed psychologist who has recently observed the subject that the subject's attendance would expose him or her to serious risk of physical harm.

(2) The subject of a petition under section 452(a) or (b) who is hospitalized pending the court hearing, within 72 hours, excluding Sundays and holidays, after the petition and clinical certificates have been filed with the court, shall meet with legal counsel, a treatment team member assigned by the hospital director, a person assigned by the executive director of the responsible community mental health services program, and, if possible, a person designated by the subject of the petition, in order to be informed of all of the following:

(a) The proposed plan of treatment in the hospital.

(b) The nature and possible consequences of commitment procedures.

(c) The proposed plan of treatment in the community consisting of either an alternative to hospitalization or a combination of hospitalization and alternative treatment with hospitalization not to exceed 60 days.

(d) The right to request that the hearing be temporarily deferred, with a continuing right to demand a hearing during the deferral period. The deferral period shall be 60 days if the individual chooses to remain hospitalized, or 90 days if the individual chooses alternative treatment or a combination of hospitalization and alternative treatment.

(3) The person designated by the subject of the petition under subsection (2) may be any person who is willing and able to attend the meeting, including a representative of an advocacy group or the recipient rights adviser of the hospital.

(4) The hospital in which the subject of a petition under section 452(a) or (b) is hospitalized shall notify the participants of the meeting required by subsection (2).

(5) The subject of a petition under section 452(a) or (b) who is hospitalized pending the court hearing may file with the court a request to temporarily defer the hearing for not longer than 60 days if the individual chooses to remain hospitalized, or 90 days if the individual chooses alternative treatment or a combination of hospitalization and alternative treatment. The request shall include a stipulation that the individual agrees to remain hospitalized and to accept treatment as may be prescribed for the deferral period, or to accept and follow the proposed plan of treatment as described in subsection (2)(c) for the deferral period, and further agrees that at any time the individual may refuse treatment and demand a hearing under section 452. The request to temporarily defer the hearing shall be on a form provided by the department and signed by the individual in the presence of his or her legal counsel and shall be filed with the court by legal counsel.

(6) Upon receipt of the request and stipulation, the court shall temporarily defer the hearing. During the deferral period, both the original petition and the clinical certificates remain valid. However, if the hearing is convened, the court may require additional clinical certificates and information from the provider. The court shall retain continuing jurisdiction during the deferral period.

(7) Upon receipt of a copy of the request to temporarily defer the hearing under subsection (5), if the individual has agreed to remain hospitalized as described in subsection (2)(a) or (c), the hospital director shall treat the individual as a formal voluntary patient without requiring the individual to sign formal voluntary admission forms. If the individual, at any time during the period in which the hearing is being deferred, refuses the prescribed treatment or requests a hearing, either in writing or orally, treatment shall cease, the hospitalized individual shall remain hospitalized with the status of the subject of a petition under section 452(a) or (b), and the court shall be notified to convene a hearing under section 452(f).

(8) Upon receipt of a copy of the request to temporarily defer the hearing under subsection (5), if the individual has agreed to participate in an alternative to hospitalization in the community, the hospital director shall release the individual from the hospital to the alternative treatment provider. If the individual, at any

time during the deferral period, refuses the prescribed treatment or requests a hearing, either in writing or orally, treatment shall cease and the court shall be notified to convene a hearing under section 452(f). Upon notification, the court shall, if necessary, order a peace officer to transport the individual to the hospital where the individual shall remain until the hearing is convened. The individual shall be given the status of the subject of a petition under section 452(a) or (b).

(9) If the individual has remained hospitalized and if, not earlier than 14 days nor later than 7 days before the expiration of the deferral period, the hospital director believes that the condition of the individual is such that he or she continues to require treatment, and believes that the individual will not agree to sign a formal voluntary admission request or is considered by the hospital not to be suitable for voluntary admission, the hospital director shall notify the court to convene a hearing under section 452(f).

After reviewing the report, the court shall do all of the following:

(b) Determine whether there is an agency or mental health professional available to supervise the individual's alternative treatment program.

(c) Inquire as to the individual's desires regarding alternatives to hospitalization.

(2) If the court determines that there is a treatment program that is an alternative to hospitalization that is adequate to meet the individual's treatment needs and prevent harm that the individual may inflict upon himself or herself or upon others within the near future and that an agency or mental health professional is available to supervise the program, the court shall issue an order for alternative treatment or combined hospitalization and alternative treatment in accordance with section 472a. The order shall state the community mental health services program or, if private arrangements have been made for the reimbursement of mental health treatment services in an alternative setting, the name of the mental health agency or professional that is directed to supervise the individual's alternative treatment program. The order may provide that if an individual refuses to comply with a psychiatrist's order to return to the hospital, a peace officer shall take the individual into protective custody and transport the individual to the hospital selected.

- (j) Any other services prescribed to treat the individual's mental illness and to either assist the individual in living and functioning in the community or to help prevent a relapse or deterioration that may reasonably be predicted to result in suicide or the need for hospitalization.

(4) In developing an order under this section, the court shall consider any preferences and medication experiences reported by the subject of the petition or his or her designated representative, whether or not the subject of the petition has an existing individual plan of services under section 712, and any directions included in a durable power of attorney or advance directive that exists. If the subject of the petition has not previously executed a durable power of attorney or an advance directive, the responsible community mental health services program shall, before the expiration of the assisted outpatient treatment order, ascertain whether the subject of the petition desires to establish an advance directive. If so, the community mental health services program shall offer to provide assistance in developing an advance directive.

(5) If an assisted outpatient treatment order conflicts with the provisions of an existing advance directive, durable power of attorney, or individual plan of services developed under section 712, the assisted outpatient treatment order shall be reviewed for possible adjustment by a psychiatrist not previously involved with developing the assisted outpatient treatment order. If an assisted outpatient treatment order conflicts with the provisions of an existing advance directive, durable power of attorney, or individual plan of services developed under section 712, the court shall state the court's findings on the record or in writing if the court takes the matter under advisement, including the reason for the conflict.

(4) If it appears to the court that the individual will not comply with an order of examination under subsection (3), the court may order a peace officer to take the individual into protective custody and transport him or her immediately to a center recommended by the community mental health services program or other suitable place designated by the community mental health services program for up to 48 hours for the ordered examination.

(5) After examination, the individual shall be allowed to return home unless it appears to the court that he or she requires immediate admission to the community mental health services program's recommended center in order to prevent physical harm to himself or herself or others pending a hearing, in which case the court shall enter an order to that effect. (7) A copy of the report required under subsection (3) shall be sent to the court immediately upon completion.

The notice shall be given at the earliest practicable time and sufficiently in advance of the hearing date to permit preparation for the hearing.

(d) Cause the individual to be given within 4 days of the court's receipt of the documents described in section 516 a copy of the petition, a copy of the report, unless the individual has previously been given a copy of the petition and the report, notice of the right to a full court hearing, notice of the right to be present at the hearing, notice of the right to be represented by legal counsel, notice of the right to demand a jury trial, and notice of the right to an independent clinical or psychological evaluation.

(e) Subsequently give copies of all orders to the persons identified in subdivision (c).

(5) Unless the individual or his or her attorney objects, the failure to timely notify a spouse, guardian, or other person determined by the court to be entitled to notice is not cause to adjourn or continue any hearing.

(6) The individual, any interested person, or the court on its own motion may request a change of venue because of residence; convenience to parties, witnesses, or the court; or the individual's mental or physical condition.

History: 1974, Act 258, Eff. Nov. 6, 1974;—Am. 1995, Act 290, Eff. Mar. 28, 1996.

(a) Order the individual to be admitted to a center designated by the department and recommended by the community mental health services program.

(b) Order the individual to be admitted to a licensed hospital at the request of the individual or his or her family member, if private funds are to be utilized and the private facility complies with all of the admission, continuing care, and discharge duties and requirements described in this chapter for centers.

330.1519 Alternative care and treatment.

Sec. 519. (1) Prior to making an order of disposition pursuant to section 518(2), the court shall consider ordering a course of care and treatment that is an alternative to admission to a center. To that end, the court shall review the report submitted to it pursuant to section 516(6)(c) and (d).

(2) If the court finds that a program of care and treatment other than admission to a center is adequate to meet the individual's care and treatment needs and is sufficient to prevent harm or injury which the individual may inflict upon himself or herself or others, the court shall order the individual to receive whatever care and treatment is appropriate under section 518(2)(c).

(3) If at the end of one year it is believed that the individual continues to meet the criteria for judicial admission, a new petition may be filed under section 516.

(4) If at any time during the 1-year period it comes to the attention of the court either that an individual ordered to undergo a program of alternative care and treatment is not complying with the order or that the alternative care and treatment has not been sufficient to prevent harm or injuries which the individual may be inflicting upon himself or herself or others, the court may without a hearing and based upon the record and other available information do either of the following:

(a) Consider other alternatives to admission to a center, modify its original order, and direct the individual to undergo another program of alternative care and treatment for the remainder of the 1-year period.

(b) Enter a new order pursuant to section 518(2)(a) or (b) directing that the individual be admitted to a center recommended by the community mental health services program. If the individual refuses to comply with this order, the court may direct a peace officer to take the individual into protective custody and transport him or her to the center recommended by the community mental health services program.

Admission shall not be ordered unless the recommended center to which the individual is to be admitted can provide the individual with care and treatment that is adequate and appropriate to his or her condition.

History: 1974, Act 258, Eff. Nov. 6, 1974;—Am. 1995, Act 290, Eff. Mar. 28, 1996.

If the individual requests it or there are other compelling reasons for an order reversing the preference, the community mental health services program may place the individual in a facility that is not the nearest to the individual's residence.

(a) The individual has knowledge that the incident of suspected criminal abuse has been reported to the appropriate law enforcement agency as provided in this section.

(b) The suspected criminal abuse occurred more than 1 year before the date on which it first became known to an individual who would otherwise be required to make a report.

(a) If the suspected criminal abuse is alleged to have been committed or caused by a mental health professional, an individual employed by or under contract to the department, a licensed facility, or a community mental health services program, or an individual employed by a service provider under contract to the department, a licensed facility, or a community mental health services program.

(a) The department or community mental health services program shall consider the adult responsible party's income to be taxable income as set forth in the adult responsible party's most recently filed state income tax return. If the parents of an individual, or the individual and spouse, are members of the same household but file separate income tax returns, the department or community mental health services program shall add together the separate taxable incomes to determine the ability to pay. If the parents or the individual and spouse are not members of the same household and they file separate tax returns, the ability to pay of each parent or of the individual and his or her spouse shall be determined separately.

(b) If an adult responsible party has not filed a state income tax return, the department or community mental health services program shall determine the adult responsible party's income from those financial documents that are legally available, based on the same factors that determine taxable income under subdivision (a).

(c) Relying upon an adult responsible party's income as determined under subdivision (a) or (b), the department and community mental health services programs shall determine ability to pay based on an ability-to-pay schedule developed under subsection (2).

The ability to pay of the parent or spouse made solely responsible by court order shall be determined in accordance with this section. The ability to pay of a parent made solely responsible by court order shall be reduced by the amount of child support the parent pays for the individual.

(g) If an individual receives services for more than 1 year, the department or community mental health services program shall annually redetermine the adult responsible parties' ability to pay on the basis of the most recently filed state income tax return or as provided in subdivision (b).

(2) The department shall promulgate rules to establish an ability-to-pay schedule that is fair and equitable. The schedule may take into consideration geographic cost-of-living differences. The department shall review the ability-to-pay schedule at least every 3 years and shall update the schedule as necessary. The department shall submit proposed rules under this subsection within 6 months after the effective date of the amendatory act that added section 819.

The department or community mental health services program shall only obligate an individual or the individual's family to pay for services based on their ability to pay when the initial bill for services is presented within 2 years from the date the services were provided.

Sec. 832. The department and community mental health services programs shall inform responsible parties whose ability to pay was determined under section 818 that if they believe that the income figure being utilized to determine their ability to pay is not appropriate to their current income status or does not

appropriately reflect their ability to pay, they may request the department or community mental health services program to make a new determination of ability to pay, and the department or community mental health services program shall be required to do so. If a responsible party has stated that the income figure being utilized is not appropriate to his or her current income status, the department or community mental health services program shall make a new determination of ability to pay based on the responsible party's current annualized Michigan taxable income. If this is not available, other documentation of income as described in section 818(1)(b) shall be used. If a responsible party has stated that the income figure being utilized does not appropriately reflect his or her ability to pay, the department or community mental health services program shall make a new determination of ability to pay based on a consideration of the responsible party's total financial situation as described in section 819. 330.1920 Interstate compact on mental health.

Sec. 920. The interstate compact on mental health is hereby enacted into law and entered into by this state with all other states legally joining therein in the form substantially as follows:

INTERSTATE COMPACT ON MENTAL HEALTH

The contracting states solemnly agree that:

Article I

The party states find that the proper and expeditious treatment of the mentally ill and mentally deficient can be facilitated by cooperative action, to the benefit of the patients, their families, and society as a whole. Further, the party states find that the necessity of and desirability for furnishing such care and treatment bears no primary relation to the residence or citizenship of the patient but that, on the contrary, the controlling factors of community safety and humanitarianism require that facilities and services be made available for all who are in need of them. Consequently, it is the purpose of this compact and of the party states to provide the necessary legal basis for the institutionalization or other appropriate care and treatment of the mentally ill and mentally deficient under a system that recognizes the paramount importance of patient welfare and to establish the responsibilities of the party states in terms of such welfare.

Article II

As used in this compact:

- (a) "Sending state" shall mean a party state from which a patient is transported pursuant to the provisions of the compact or from which it is contemplated that a patient may be so sent.
- (b) "Receiving state" shall mean a party state to which a patient is transported pursuant to the provisions of the compact or to which it is contemplated that a patient may be so sent.
- (c) "Institution" shall mean any hospital or other facility maintained by a party state or political subdivision thereof for the care and treatment of mental illness or mental deficiency.
- (d) "Patient" shall mean any person subject to or eligible as determined by the laws of the sending state, for institutionalization or other care, treatment, or supervision pursuant to the provisions of this compact.
- (e) "After-care" shall mean care, treatment and services provided a patient, as defined herein, on convalescent status or conditional release.
- (f) "Mental illness" shall mean mental disease to such extent that a person so afflicted requires care and treatment for his own welfare, or the welfare of others, or of the community.
- (g) "Mental deficiency" shall mean mental deficiency as defined by appropriate clinical authorities to such extent that a person so afflicted is incapable of managing himself and his affairs, but shall not include mental illness as defined herein.
- (h) "State" shall mean any state, territory or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

Article III

- (a) Whenever a person physically present in any party state shall be in need of institutionalization by reason of mental illness or mental deficiency, he shall be eligible for care and treatment in an institution in that state irrespective of his residence, settlement or citizenship qualifications.
- (b) The provisions of paragraph (a) of this article to the contrary notwithstanding, any patient may be transferred to an institution in another state whenever there are factors based upon clinical determinations indicating that the care and treatment of said patient would be facilitated or improved thereby. Any such institutionalization may be for the entire period of care and treatment or for any portion or portions thereof. The factors referred to in this paragraph shall include the patient's full record with due regard for the location of the patient's family, character of the illness and probable duration thereof, and such other factors as shall be considered appropriate.
- (c) No state shall be obliged to receive any patient pursuant to the provisions of paragraph (b) of this article unless the sending state has given advance notice of its intention to send the patient; furnished all available medical and other pertinent records concerning the patient; given the qualified medical or other appropriate clinical authorities of the receiving state an opportunity to examine the patient if said authorities so wish; and unless the receiving state shall agree to accept the patient.
- (d) In the event that the laws of the receiving state establish a system of priorities for the admission of patients, an interstate patient under this compact shall receive the same priority as a local patient and shall be taken in the same order and at the same time that he would be taken if he were a local patient.
- (e) Pursuant to this compact, the determination as to the suitable place of institutionalization for the patient

may be reviewed at any time and such further transfer of the patient may be made as seems likely to be in the best interest of the patient.

Article IV

(a) Whenever, pursuant to the laws of the state in which a patient is physically present, it shall be determined that the patient shall receive after-care or supervision such care or supervision may be provided in a receiving state. If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state shall have reason to believe that after-care in another state would be in the best interest of the patient and would not jeopardize the public safety, they shall request the appropriate authorities in the receiving state to investigate the desirability of affording the patient such after-care in said receiving state, and such investigation shall be made with all reasonable speed. The request for investigation shall be accompanied by complete information concerning the patient's intended place of residence and the identity of the person in whose charge it is proposed to place the patient, the complete medical history of the patient, and such other documents as may be pertinent.

(b) If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state and the appropriate authorities in the receiving state find that the best interest of the patient would be served thereby, and if the public safety would not be jeopardized thereby, the patient may receive after-care or supervision in the receiving state.

(c) In supervising, treating, or caring for a patient on after-care pursuant to the terms of this article, a receiving state shall employ the same standards of visitation, examination, care, and treatment that it employs for similar local patients.

Article V

Whenever a dangerous or potentially dangerous patient escapes from an institution in any party state, that state shall promptly notify all appropriate authorities within and without the jurisdiction of the escape in a manner reasonably calculated to facilitate the speedy apprehension of the escapee. Immediately upon the apprehension and identification of any such dangerous or potentially dangerous patient, he shall be detained in the state where found pending disposition in accordance with law.

Article VI

The duly accredited officers of any state party to this compact, upon the establishment of their authority and the identity of the patient, shall be permitted to transport any patient being moved pursuant to this compact through any and all states party to this compact, without interference.

Article VII

(a) No person shall be deemed a patient of more than one institution at any given time. Completion of transfer of any patient to an institution in a receiving state shall have the effect of making the person a patient of the institution in the receiving state.

(b) The sending state shall pay all costs of and incidental to the transportation of any patient pursuant to this compact, but any two or more party states may, by making a specific agreement for that purpose, arrange for a different allocation of costs as among themselves.

(c) No provision of this compact shall be construed to alter or affect any internal relationships among the departments, agencies and officers of and in the government of a party state, or between a party state and its subdivisions, as to the payment of costs, or responsibilities therefor.

(d) Nothing in this compact shall be construed to prevent any party state or subdivision thereof from asserting any right against any person, agency or other entity in regard to costs for which such party state or subdivision thereof may be responsible pursuant to any provision of this compact.

(e) Nothing in this compact shall be construed to invalidate any reciprocal agreement between a party state and a non-party state relating to institutionalization, care or treatment of the mentally ill or mentally deficient, or any statutory authority pursuant to which such agreements may be made.

Article VIII

(a) Nothing in this compact shall be construed to abridge, diminish, or in any way impair the rights, duties, and responsibilities of any patient's guardian on his own behalf or in respect of any patient for whom he may serve, except that where the transfer of any patient to another jurisdiction makes advisable the appointment of a supplemental or substitute guardian, any court of competent jurisdiction in the receiving state may make such supplemental or substitute appointment and the court which appointed the previous guardian shall upon being duly advised of the new appointment, and upon the satisfactory completion of such accounting and other acts as such court may by law require, relieve the previous guardian of power and responsibility to whatever extent shall be appropriate in the circumstances: Provided, however, that in the case of any patient having settlement in the sending state, the court of competent jurisdiction in the sending state shall have the sole discretion to relieve a guardian appointed by it or continue his power and responsibility, whichever it shall deem advisable. The court in the receiving state may, in its discretion, confirm or reappoint the person or

persons previously serving as guardian in the sending state in lieu of making a supplemental or substitute appointment.

(b) The term "guardian" as used in paragraph (a) of this article shall include any guardian, trustee, legal committee, conservator, or other person or agency however denominated who is charged by law with power to act for or responsibility for the person or property of a patient.

Article IX

(a) No provision of this compact except Article V shall apply to any person institutionalized while under sentence in a penal or correctional institution or while subject to trial on a criminal charge, or whose institutionalization is due to the commission of an offense for which, in the absence of mental illness or mental deficiency, said person would be subject to incarceration in a penal or correctional institution.

(b) To every extent possible, it shall be the policy of states party to this compact that no patient shall be placed or detained in any prison, jail or lockup, but such patient shall, with all expedition, be taken to a suitable institutional facility for mental illness or mental deficiency.

Article X

(a) Each party state shall appoint a "compact administrator" who, on behalf of his state, shall act as general coordinator of activities under the compact in his state and who shall receive copies of all reports, correspondence, and other documents relating to any patient processed under the compact by his state either in the capacity of sending or receiving state. The compact administrator or his duly designated representative shall be the official with whom other party states shall deal in any matter relating to the compact or any patient processed thereunder.

(b) The compact administrators of the respective party states shall have power to promulgate reasonable rules and regulations to carry out more effectively the terms and provisions of this compact.

Article XI

The duly constituted administrative authorities of any two or more party states may enter into supplementary agreements for the provision of any service or facility or for the maintenance of any institution on a joint or cooperative basis whenever the states concerned shall find that such agreements will improve services, facilities, or institutional care and treatment in the fields of mental illness or mental deficiency. No such supplementary agreement shall be construed so as to relieve any party state of any obligation which it otherwise would have under other provisions of this compact.

Article XII

This compact shall enter into full force and effect as to any state when enacted by it into law and such state shall thereafter be a party thereto with any and all states legally joining therein.

Article XIII

(a) A state party to this compact may withdraw therefrom by enacting a statute repealing the same. Such withdrawal shall take effect one year after notice thereof has been communicated officially and in writing to the governors and compact administrators of all other party states. However, the withdrawal of any state shall not change the status of any patient who has been sent to said state or sent out of said state pursuant to the provisions of the compact.

(b) Withdrawal from any agreement permitted by Article VII (b) as to costs or from any supplementary agreement made pursuant to Article XI shall be in accordance with the terms of such agreement.

Article XIV

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

If the officer in charge of a state correctional facility receives a report from a mental health professional that a prisoner may be mentally ill, the officer shall ensure that the prisoner is examined by a psychiatrist as soon as administratively possible. If the report from the mental health professional states that the prisoner may be mentally retarded, the officer shall ensure that the prisoner is examined by a psychologist as soon as administratively possible. Unless the prisoner can be examined within the facility where he or she is housed, the prisoner shall be transferred to an appropriate facility for examination.

If the corrections mental health program is advised by a prisoner of an intention to terminate admission, the program shall promptly provide the written form required for termination of admission and return the prisoner to the general population of the state correctional facility.

(c) If written notice of termination of admission has been given pursuant to subdivision (b) and has not been withdrawn, and if the director of the corrections mental health program determines that the prisoner continues to require mental health services, the director, or a person designated by the director, within 3 days, excluding Sundays and holidays, after the receipt by the corrections mental health program of the notice, shall provide the prisoner and the guardian of the person, if applicable, with a notice of hearing explaining hearing rights set forth in section 1003c. INCOMPETENCE TO STAND TRIAL

330.2020 Defendant presumed competent to stand trial; determination of incompetency; effect of medication; statement by physician.

Sec. 1020. (1) A defendant to a criminal charge shall be presumed competent to stand trial. He shall be determined incompetent to stand trial only if he is incapable because of his mental condition of understanding the nature and object of the proceedings against him or of assisting in his defense in a rational manner. The court shall determine the capacity of a defendant to assist in his defense by his ability to perform the tasks reasonably necessary for him to perform in the preparation of his defense and during his trial.

(2) A defendant shall not be determined incompetent to stand trial because psychotropic drugs or other medication have been or are being administered under proper medical direction, and even though without such medication the defendant might be incompetent to stand trial. However, when the defendant is receiving such medication, the court may, prior to making its determination on the issue of incompetence to stand trial, require the filing of a statement by the treating physician that such medication will not adversely affect the defendant's understanding of the proceedings or his ability to assist in his defense.

History: 1974, Act 258, Eff. Aug. 6, 1975.

330.2022 Proceeding against incompetent defendant prohibited; pretrial motions; preservation and admissibility of evidence.

Sec. 1022. (1) A defendant who is determined incompetent to stand trial shall not be proceeded against while he is incompetent.

(2) Any pretrial motion may be made by either the defense or prosecution while a defendant is incompetent to stand trial, and the issues presented by the motion shall be heard and decided if the presence of the defendant is not essential for a fair hearing and decision on the motion.

(3) When it appears that evidence essential to the case the defense or prosecution plans to present might not be available at the time of trial, the court shall allow such evidence to be taken and preserved. Evidence so taken shall be admissible at the trial only if it is not otherwise available. Procedures for the taking and preserving of evidence under this subsection, and the conditions under which such evidence shall be admissible at trial, shall be provided by court rule.

330.2026 Examination of defendant.

Sec. 1026. (1) Upon a showing that the defendant may be incompetent to stand trial, the court shall order the defendant to undergo an examination by personnel of either the center for forensic psychiatry or other facility officially certified by the department of mental health to perform examinations relating to the issue of incompetence to stand trial. The defendant shall make himself available for the examination at the places and times established by the center or other certified facility. If the defendant, after being notified, fails to make himself available for the examination, the court may order his commitment to the center or other facility without a hearing.

(2) When the defendant is to be held in a jail or similar place of detention pending trial, the center or other facility may perform the examination in the jail or may notify the sheriff to transport the defendant to the center or other facility for the examination, and the sheriff shall return the defendant to the jail upon completion of the examination.

(3) Except as provided in subsection (1), when the defendant is not to be held in a jail or similar place of detention pending trial, the court shall commit him to the center or other facility only when the commitment is necessary for the performance of the examination.

(4) The defendant shall be released by the center or other facility upon completion of the examination.

(1) When the defendant is ordered to undergo an examination pursuant to section 1026, the center or other facility shall, for the purpose of gathering psychiatric and other information pertinent to the issue of the incompetence of the defendant to stand trial, examine the defendant and consult with defense counsel, and may consult with the prosecutor or other persons. Defense counsel shall make himself available for consultation with the center or other facility. The examination shall be performed, defense counsel consulted, and a written report submitted to the court, prosecuting attorney, and defense counsel within 60 days of the date of the order.

- (2) The report shall contain:
- (a) The clinical findings of the center or other facility.
 - (b) The facts, in reasonable detail, upon which the findings are based, and upon request of the court, defense, or prosecution additional facts germane to the findings.
 - (c) The opinion of the center or other facility on the issue of the incompetence of the defendant to stand trial.
 - (d) If the opinion is that the defendant is incompetent to stand trial, the opinion of the center or other facility on the likelihood of the defendant attaining competence to stand trial, if provided a course of treatment, within the time limit established by section 1034.

(3) The opinion concerning competency to stand trial derived from the examination may not be admitted as evidence for any purpose in the pending criminal proceedings, except on the issues to be determined in the hearings required or permitted by sections 1030 and 1040. The foregoing bar of testimony shall not be construed to prohibit the examining qualified clinician from presenting at other stages in the criminal proceedings opinions concerning criminal responsibility, disposition, or other issues if they were originally requested by the court and are available. Information gathered in the course of a prior examination that is of historical value to the examining qualified clinician may be utilized in the formulation of an opinion in any subsequent court ordered evaluation.

Sec. 1030. (1) Upon receipt of the written report, the court shall cause the defendant to appear in court and shall hold a hearing within 5 days or upon the conclusion of the case, proceeding, or other matter then before it, whichever is sooner, unless the defense or prosecution for good cause requests a delay for a reasonable time.

(2) On the basis of the evidence admitted at the hearing, the court shall determine the issue of the incompetence of the defendant to stand trial. If the defendant is determined incompetent to stand trial, the court shall also determine whether there is a substantial probability that the defendant, if provided a course of treatment, will attain competence to stand trial within the time limit established by section 1034.

(3) The written report shall be admissible as competent evidence in the hearing, unless the defense or prosecution objects, but not for any other purpose in the pending criminal proceeding. The defense, prosecution, and the court on its own motion may present additional evidence relevant to the issues to be determined at the hearing.

(4) If the defendant is receiving medication and is not determined incompetent to stand trial, the court may, in order to maintain the competence of the defendant to stand trial, make such orders as it deems appropriate for the continued administration of such medication pending and during trial.

(2) The court shall appoint a medical supervisor of the course of treatment. The supervisor may be any person or agency willing to supervise the course of treatment, or the department of mental health.

(3) The court may commit the defendant to the custody of the department of mental health, or to the custody of any other inpatient mental health facility if it agrees, only if commitment is necessary for the effective administration of the course of treatment. If the defendant, absent commitment to the department of mental health or other inpatient facility, would otherwise be held in a jail or similar place of detention pending trial, the court may enter an order restricting the defendant in his movements to the buildings and grounds of

the facility at which he is to be treated.

History: 1974, Act 258, Eff. Aug. 6, 1975.

330.2040 Redetermining issue of incompetence to stand trial; hearing; commencement of trial; modification or continuance of orders.

Sec. 1040. (1) The court shall forthwith hear and redetermine the issue of the incompetence of the defendant to stand trial and, if the defendant is redetermined incompetent to stand trial, shall hear and determine whether the defendant has made progress toward attaining competence to stand trial during his course of treatment, whenever the court receives a report from the supervisor of treatment, unless the defense waives the hearing, or whenever deemed appropriate by the court.

(2) Section 1030 shall govern hearings held pursuant to this section.

(2) When charges are dismissed pursuant to subsection (1), the same charges, or other charges arising from the transaction which gave rise to the dismissed charges, shall not subsequently be filed against the defendant, except as provided in this section.

(3) If the charges were dismissed pursuant to subsection (1) (b) and if the crime charged was punishable by a sentence of life imprisonment, the prosecutor may at any time petition the court for permission to again file charges. In the case of other charges dismissed pursuant to subsection (1) (b), the prosecutor may, within that period of time after the charges were dismissed equal to 1/3 of the maximum sentence that the defendant could receive on the charges, petition the court for permission to again file charges.

(4) The court shall grant permission to again file charges if after a hearing it determines that the defendant is competent to stand trial. Sec. 1050. (1) The court shall immediately commit any person who is acquitted of a criminal charge by reason of insanity to the custody of the center for forensic psychiatry, for a period not to exceed 60 days. The court shall forward to the center a full report, in the form of a settled record, of the facts concerning the crime which the patient was found to have committed but of which he was acquitted by reason of insanity. The center shall thoroughly examine and evaluate the present mental condition of the person in order to reach an opinion on whether the person meets the criteria of a person requiring treatment or for judicial admission set forth in section 401 or 515.

(2) Within the 60-day period the center shall file a report with the court, prosecuting attorney, and defense counsel. The report shall contain a summary of the crime which the patient committed but of which he was acquitted by reason of insanity and an opinion as to whether the person meets the criteria of a person requiring treatment or for judicial admission as defined by section 401 or 515, and the facts upon which the opinion is based. If the opinion stated is that the person is a person requiring treatment, the report shall be accompanied by certificates from 2 physicians, at least 1 of whom shall be a psychiatrist, which conform to the requirements of section 400(j).

(3) After receipt of the report, the court may direct the prosecuting attorney to file a petition pursuant to section 434 or 516 for an order of hospitalization or an order of admission to a facility with the probate court of the person's county of residence or of the county in which the criminal trial was held. Any certificates that accompanied the report of the center may be filed with the petition, and shall be sufficient to cause a hearing to be held pursuant to section 451 even if they were not executed within 72 hours of the filing of the petition. The report from the court containing the facts concerning the crime for which he was acquitted by reason of insanity shall be admissible in the hearings.

(4) If the report states the opinion that the person meets the criteria of a person requiring treatment or for judicial admission, and if a petition is to be filed pursuant to subsection (3), the center may retain the person pending a hearing on the petition. If a petition is not to be filed, the prosecutor shall notify the center in writing. The center, upon receipt of the notification, shall cause the person to be discharged.

(5) The release provisions of sections 476 to 479 of this act shall apply to a person found to have
